Oracle Conservatory Mammoth/San Manuel

Winter Band Concert a success

By T.C. Brown
Copper Area News

The Oracle Conservatory Mammoth/San Manuel Winter Band Concert was held on Dec. 2, 2024, at the MSMUSD Auditorium. Band family members, Oracle Piano Society members and the local

community joined together to listen to the musical sounds of the season. It was great to hear holiday music and more. The music has been missing from the auditorium stage in recent years.

Director Lorena Candelaria has been working with the children

of the Beginning and Intermediate Bands as they learn to read music and play instruments. On Flute were Lucinda Delzer, Athena Amparano, and Alyze Coggins. Baritone is Cassadee Brown. On Clarinet were

Layla Madrid, Arizona Axe, Alyssa Badillo, Jordan Doucette, Ellie Madrid, Ava Melton and Brooklyn Parham. On Trombone were Zaiden Bathrick, Leliana Garcia, Ivana Gonzalez, and Amelia Matthews. On Alto Saxophone were Logan Points and Xander Coggins. On Trumpet were Amy Emberton, Caleb Bathrick, Elena Driggers, Oscar Gomez, Frederick Malatt, Cassidy Marlow and Juan Smith. Percussion members were Jesse Espinoza, Josh Arbizo, Mason Bathrick, Kadie Cox, Douglas Rickaby and Easton Watson.

The talented groups played holiday favorites, rock anthems, band classics, movie scores and more to the delight of the audience. There were wonderful solo and duet performances as well. The hard work by the instructor, the students and those behind-the-scenes were apparent. Lorena Candelaria praised the students for their efforts. She expressed hope for a full-time music/ band program at the school. Many of the Band members also marched in the San Manuel Homecoming Parade back in October.

This program was presented by the Oracle Piano Society and was made possible by a grant from the Ak-Chin Indian Community and from the generosity of individual donors like you. More information and tax credit contributions for this program can be found at <https://www.oraclepianosociety.org>.

OBITUARIES

Samantha Bayardo

Samantha Bayardo, 25, passed away in Mesa on Dec. 6, 2024. Cause of death is pending.

She is survived by her father and mother, Jorge “Ani” and Elizabeth Bayardo; siblings, Miguel, Elizani and Alexis; and son, JoseLuis Samuel Bayardo.

Samantha made friends wherever she went and was always happy-go-lucky. She loved spending time with her family, aunts, uncles, cousins and especially her son and seven nieces and nephews (all Alexis’).

Samantha was a fan of the Arizona Wildcats, Arizona Diamondbacks and Denver Broncos and going to their

games. She loved playing sports growing up and then watching her father officiate high school sports (it was probably just to be around the high school players). She loved to dance and sing and was a member of her dance club while at AZ Compass.

Samantha would often talk about the great friendships and memories she made while playing sports and dance. She will be missed by those that loved her. Rest in Peace

Samantha, Sami, SamiLiz, My Little One and Uggy.

A Memorial will be held for Samantha at The Church of Jesus Christ of Latter-day Saints, located at 1001 S McNab Parkway in San Manuel on Saturday, Dec. 21, beginning at noon. Lunch will be served. Any attire is welcomed but in memory of Samantha, please wear Stitch, baby giraffe, Arizona Wildcats, Arizona Diamondbacks or an orange shirt. Cremation will take place in lieu of interment.

Aaron K. Goodridge

Aaron K. Goodridge was born Feb. 23, 1981, to Robert and Patti Goodridge in Mesa, Arizona.

Aaron grew up in Kearny and attended Ray Schools. When he was old enough, he moved to Phoenix and got his Commercial Driver’s License. He loved being a truck driver, hauling sand and gravel around the Valley. Later in life he even tried his hand at being a long-haul trucker. Aaron spent most of his life in Kearny, where he felt the most comfortable.

Aaron’s biggest joy in life was his best buddy, Zion. He

loved taking Zion places, teaching him how to do things, and just spending time with him. Aaron enjoyed hiking in the hills and many times would bring home rocks with extraordinary shapes and colors, some with fossils. He liked to go hunting with his dad and brothers and usually brought home the biggest deer. Aaron’s love for rattlesnake hunting, which as a child, his big brother Robert taught him how to do, continued throughout his life. He enjoyed going four-wheeling out in the hills, whether on his dirt bike, his quad, or in his pick-up truck. Aaron also really enjoyed camping out, whether it was in the backyard on his trampoline with friends, in the backyard with his dogs, or at his campsite on the Gila River where he was found on Nov. 29, 2024.

Aaron was preceded in death by his younger brother, Kyle; maternal grandparents, Patricia and William Hudson; paternal grandparents, James Goodridge and Gordon and Katherine Wainwright; uncles, James Goodridge and Barry Whelchel; and aunt, Georgia Carroll. Aaron is survived by his parents, Robert and Patti Goodridge; two brothers, Robert (Leticia) and Gordon Goodridge; and numerous aunts, uncles, nieces, and cousins.

Memorial service for Aaron Goodridge will be held at Living Word Chapel, 402 Danbury Rd., Kearny, Arizona on Dec. 21, 2024, at 11 a.m.

Redhawk Exploration holds successful Open House in San Manuel

More than 100 attendees from the local Pinal County community came together at the San Manuel Community Center recently to hear the most recent update from Redhawk Exploration. Redhawk is exploring for copper in eastern Pinal County on the area of Copper Creek. Redhawk expressed appreciation for all whom attended and engaged in a positive way at the event. They stated that they are “looking forward to

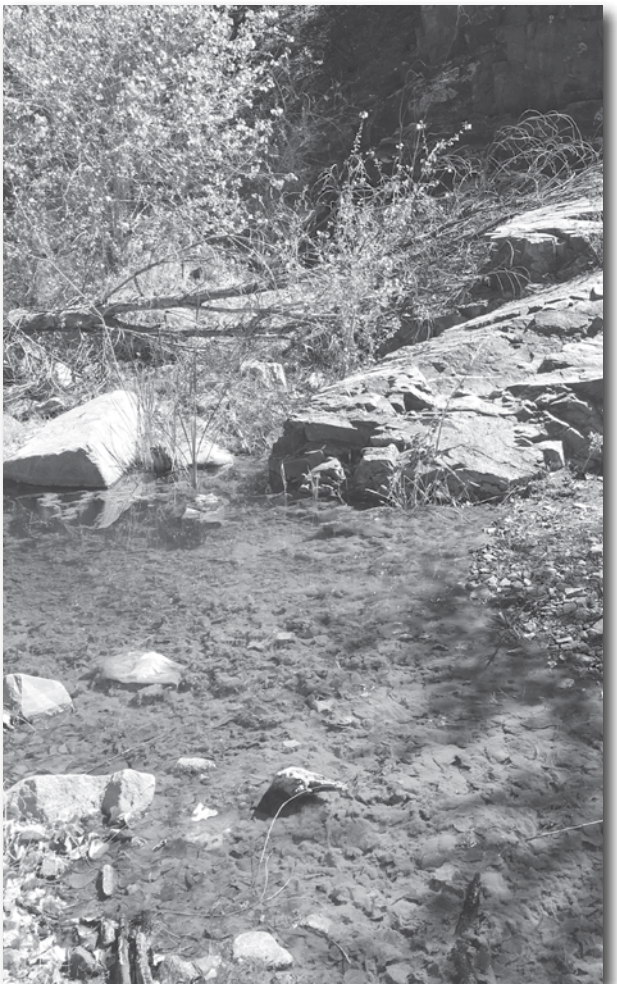

continuing this journey together while keeping the community informed and involved...” Several points were discussed and presented by Redhawk Exploration in an attempt to address questions and concerns.

“We value the input of our community and always strive to be a good neighbor. The majority of our staff attended the open house in support of our communities, as they too live and work in the area,” said Redhawk Exploration Community Liaison Kennedy Ivy. “We had over 100 people attend, not including our staff, and we were happy to engage with so many people. There were many stories shared and conversations about the project. We had subject matter experts at our various booths so that people could come and ask about the areas that are most important to them. As many people are excited to see mining activity in the area, we had a lot of support and people inquiring about employment. Additionally, we always welcome other industry professionals who are curious about where our project stands. The mining community is close and supportive of other projects.”

Copper exploration is not mining; it is small footprint, minimal impact work.

Redhawk is in the process of exploring for a potential new copper deposit approximately eight miles east of Mammoth, Arizona. Exploration is a distinctly different phase from mining, which involves minimal disturbance and small footprint work confined to drill pads across Redhawk’s private

land and adjacent state and federal lands.

For those who are familiar with drilling to install water wells, this work is similar in nature. This drilling receives cylinders of rock which is known as core, this core is then analyzed for a suite of elements, in the case of our project, copper, to determine if the concentrations are sufficient to be potentially economic for extraction.

Should a mine be proposed for development, this would involve a robust public consultation process where members of the community and other interested stakeholders are consulted.

“We would be pleased to see copper added to the critical mineral list,” Ivy added. “Copper is a vital resource to achieving the goal of clean energy, the medical field, communications and the defense of our country. In 2022 alone the United States imported billions of dollars’ worth of copper when we are more

than capable of producing it domestically. It would be very beneficial to develop more domestic copper mines not only to the country as a whole, but to the states and communities that they would operate in.”

Exploration is not mining.

Dear Santa ...

Santa Claus has received many messages from local children and has decided to share them with the Copper Corridor to spread the joy. These are the Letters to Santa that we have received from the big man, himself. As is the usual case, with fax machines and regular human eyeballs being what they are, some letters that came to Santa just fine and which he read with much enjoyment got a little jumbled traveling our way. Never fear! Where we might fail to discern the wants of our local youth in their writing, Santa has triumphed again. Now, Dear Santa:

Redhawk's activities are regulated by state and federal authorities.

Redhawk's drilling and other activities are regulated by the Bureau of Land Management (BLM), the Arizona Department of Water Resources (ADWR), the Arizona State Land Department (ASLD), and the Arizona Department of Environmental Quality (ADEQ). We strictly adhere to all permit requirements for drilling activities.

When it comes to water, every drop counts.

This means working closely with other water users in the area to ensure that our activities align with the long-term water balance in the region.

Currently, Redhawk only utilizes water pumped from privately registered wells for drilling activities, which is then directed back down the drill holes during drilling, known as recirculation. As a result, over 95% of the water pumped for drilling purposes goes back into the ground where it came from, with the remainder being evaporated. All of this activity is permitted and regulated by government authorities. One drill rig typically uses less than the equivalent of four household's worth of water each month.

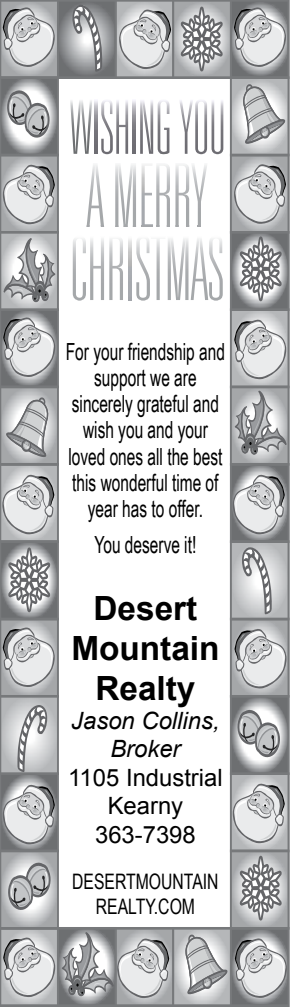

Redhawk is also currently studying and collecting data on local surface and groundwater, including flow and groundwater

elevation data. These studies will help us better understand the local water conditions including water quality and quantity. **Redhawk takes care of the natural environment.** Redhawk has completed a biological evaluation as part of its drill permitting process on federal lands, including a review of species and plants. Cultural studies, including tribal engagement, site visits, and archeological surveys, are ongoing.” **Copper Creek Road will remain open as long as it is safe for the public.**

Redhawk will continue to provide open access to Copper Creek Road as long as it is safe to do so. During periods of heavy equipment movement or road maintenance, the road on private land may be temporarily closed. Signage indicating possible intermittent road closure will be installed in the appropriate areas.

We ask that the public access Redhawk’s private land portions of Copper Creek Road with respect for the land and natural environment. The public must adhere to all posted signage. Failure to do so may result in the road being closed to the public.

Future mining activities could mean \$14.2 billion in economic development.

While it is too early in the process to determine if the

Redhawk Exploration project will become a mine, it is important to understand the potential impact of this project on the region. We recently commissioned an economic impact study to better understand these impacts. The study concluded that Redhawk would have an impact of \$14.2 billion when looking at direct, indirect, and induced economic impacts. This is the equivalent of 14 Super Bowls to eastern Pinal County. The project would also result in nearly \$90 million in personal income for Arizona residents, as well as \$1.6 billion in local, county, state, and federal taxes and create approximately 1,200 local employment opportunities.

Protecting the supply chain, starts with mineral exploration.

With heavy demand for copper from utility grid improvements, manufacturing of electric vehicles, national security, and other uses, the U.S. needs steady sources of domestic production. As Pinal County grows its manufacturing base in response to meeting domestic production demands, Redhawk sees an opportunity to be the first link in the supply chain.

Redhawk is exploring on previously mined land.

Mining isn’t new to the Copper Corridor and it’s not new to the areas we are exploring on. Our project area has been host

on the task of restoring the local cemetery, which is to be renamed from the Fairfield Cemetery to the Superior Veterans and Community Cemetery. With the initiative developed by Cervantes and Romero, the undertaking was created with the idea of continuing to honor the loved ones and Veterans of Superior, who rest on the sacred ground of the cemetery.

In March, the initiative was brought to Mayor Mila Besich and the town council. Upon obtaining authorization, Sapper Association President Urqueta secured a memorandum of understanding to move forward with coordination, fundraising, and planning, with town leadership agreeing to take responsibility in getting the cemetery renamed.

The overall project will see a new Sunset Entrance with two stone pillars on both sides, an updated exit, and a new sign with the updated name. The old and falling chain-link fencing will be removed and replaced with a new fence. There are plans to build restrooms, as well as improve the interior roads. The project has been broken down into five phases. Phase One: social media awareness, network building, and fundraising. Phase Two: Sunset entrance and exit demolition and restoration. Phase Three: one mile of perimeter fencing will be demolished and restored. Phase Four: Restroom development and construction. Phase Five: interior

to mining activities since the late 1800s. The access roads and trails that both we and the public use are the result of these historical mining activities.

Some of our site evaluation work includes planning for the reclamation of mining activity that long pre-dates our work. Our aim: leave it better than we found it.

At this stage of the project, there is no definitive destination

for where any minerals that would be produced at the site will end up. The robust public process of permitting a mine means that any potential operations would be far in the future and difficult to be considered today. That said, our preference is to keep any copper concentrate produced at the site as close as possible to the operation.

Community members can reach out to Redhawk via: the Community Hotline (520) 385-7797 or Email community@redhawkexploration.com. This information and more can be found on the Redhawk Exploration site at <https://redhawkexploration.com/#get-the-facts>.

Related Copper Creek History – Redhawk Copper and

Faraday Copper

The history of this advanced exploration site dates back to the 1860s when the Bluebird mine was first discovered and the 1880s when the Bunker Hill mining district was established.

Claims were staked to cover copper deposits prior to 1900, but little work was done in the district until after 1902. Most of the historical interest in the property came as a result of the massive outcropping of breccias, many of which with green copper oxide minerals readily recognized. By 1913, the Copper Creek Mining Company and its successors (Minnesota-Arizona Mining Company and Copper State Metals and Mining Company) had constructed a dam, power plant, dispensary, and a 200 tonne per day gravity concentrator to mine a small ore body. Approximately 360kt of high-grade ore has been extracted over the site's mining history.

1994 - Arizona Mineral Technology (AMT) acquired the Copper Creek property from Magma.

1995 - AMT began field investigations at Copper Creek, drilling nine reverse circulation (RC) holes at Old Reliable to confirm that leaching by Ranchers had not significantly depleted the chalcocite ore body there. AMT also obtained an interest in Phelps Dodge Corporation's patented claims and obtained prospecting permits for State lands in the south half of Section 2, near Bluebird Mine.

1996-1997 - AMT drilled 37 angled diamond core holes (12,229 meters in total) to test the Childs Aldwinkle pipe above

access roads improvement. “The cemetery reflects on the community, it’s time that we, as citizens take ownership of that,” commented Cervantes, “There’s about two or three 501 (c)(3) organizations in Superior, so we want to work together with them, maybe if we could pull all our heads together, we can do something and have a nice clean cemetery.” Community involvement is key to this project, to build ownership, and pride in the work being done. The plans are to have Superior based welders, block layers, and design team. Adelante-Juntos has developed an initiative for families, business owners, and individuals to purchase a 10’ section of perimeter metal fencing for

\$225, which will include a metal 5”x8” placard that will be attached to the fence with family’s surname and year, if affiliated with the military, the proper seal will be added. “This is not a project that is going to be done in three months, maybe the first phases will be done shortly after January,” commented Urquieta, “It’s a matter of everyone here coming together and doing what’s right for those residents and veterans that are buried in the cemetery.” If you are interested in donating, or volunteering, please contact Robert “Veto” Cervantes at 520-827-1808 or Alex Romero at 480-383-3038. JOY
IS IN THE AIR!
∞

It's beginning to look a lot like Christmas
The signs are everywhere;
From mistletoe and strings of light;
To magic in the air;
And if you look high in the sky,
You may see Santa's Sleigh –
Delivering our warm wishes
For a Merry Holiday!
